★This index is a users reference of specialized Information Protection publications. These publications pertain to the communications security (COMSEC), computer security (COMPUSEC), emission security (EMSEC), and Information Protection Awareness, Training, and Education portions of the Information Protection program. This index also lists web sites and publications of other organizations, such as the National Security Agency (NSA), the National Computer Security Center (NCSC), and the National Institute of Standards and Technology (NIST) that are of interest to persons engaged in Information Protection activities. Send comments, changes, and suggested improvements direct to HQ AFCA/GCIS, 203 W Losey Street Room 2040, Scott AFB IL 62225-5234.

SUMMARY OF REVISIONS

★This revision deletes the section for Communications Security Engineering Systems Documents (CSESDs), provides information for either ordering publications or accessing them on-line via web sites, and updates the OPR information.

1. Obtaining Publications Listed in AFIND 5. Source and ordering information for publications listed in this index is identified in the corresponding paragraph(s) for each section. New and revised publications will be announced in the *Air Force Publishing Bulletin* (AFPB).

2. Revision Dates. As required. Changes are not issued.

3. Symbols Used:

AFLMM	Air Force Limited Maintenance Manual
AFSSI	Air Force Systems Security Instruction
AFSSM	Air Force Systems Security Memorandum
LMM	Limited Maintenance Manual
NOFORN	Not Releasable To Foreign Nationals
NSTISSI	National Security Telecommunications and Information Systems Security Instruction
NSTISSAM	National Security Telecommunications and Information Systems Security Advisory Memorandum
TCLMM	Time Compliance Limited Maintenance Manual
★	Changed information or new publication issued since last index edition.
FOUO	For Official Use Only (See AFI 37-131, <i>Air Force Freedom of Information Act Program</i>)
(S) or (C)	Security classification (see DoD 5200.1-R)

Section A - Emission Security Publications

★4. Emission Security Publications. These are national-level publications intended for major command use only when operating in a joint environment in conjunction with other services. These publications are not available through AFPDC. To request these publications, submit justification to the OPR at HQ AFCA/GCIS; 203 W Losey St Rm 2040; Scott AFB IL 62225-5234.

Section B - Information Protection Publications

★5. Information Protection Publications. These Air Force Systems Security Instructions (AFSSIs) and Air Force Systems Security Memorandums (AFSSMs) provide operational and technical direction and information to persons engaged in Information Protection security activities. Some of these publications are available electronically from the Air Force Communications Agency (AFCA) Information Protection Homepage located at <http://www.afca.scott.af.mil/gc/gci/>. For older publications that are not available electronically, the Air Force Publishing Distribution Center (AFPDC) distributes these publications through its distribution system to publishing distribution offices (PDO) and users (see AFI 37-161, *Distribution Management*). PDOs establish requirements and requisition these items from the AFPDC in the short title format shown in this index.

Section C - Limited Maintenance Publications

★6. Limited Maintenance Publications. Limited Maintenance Manuals (LMMs) are published by NSA and distributed by HQ CPSG/LGLIT. They are Unclassified, For Official Use Only, and provide limited maintenance instructions, operating instructions, principles of operation, and parts information. In some instances, LMMs will replace limited maintenance KAMs. AFLMMs are Limited Maintenance Manuals that contain Air Force unique information. TCLMMs contain the modification instructions to implement an NSA-directed modification within the Air Force. LMMs, AFLMMs, and TCLMMs are published and distributed by HQ CPSG/LGLIT. To obtain a listing of these publications and information on how to order them, access the CPSG Home Page at <http://www.kelly.af.mil/cpsg>. For more information, contact HQ CPSG/LGLIT, by phone at DSN 969-4989 or Commercial (210) 977-4989, or by e-mail at pknutson@ltgate1.kelly.af.mil or fwillis@ltgate1.kelly.af.mil.

Section D - Other Publications

★7. The National Institute of Standards and Technology (NIST) Computer Security Resource Clearinghouse (CSRC). The CSRC is designed to collect and disseminate computer security information and resources to help users, systems administrators, managers, and security professionals better protect their data and systems. A primary goal of the CSRC is to raise awareness of all computer systems users – from novice to expert – about computer security. The CSRC web site maintains a list of recent publications from a variety of sources that deal with information security issues. These publications include NIST publications such as Federal Information Processing Standards (FIPS), Special Publications such as the NIST Pub List 91, and Information Technology Laboratory (ITL) Bulletins; Other Security Publications; and the Rainbow Series. To obtain these publications on-line or information on how to order them, access the CSRC Home Page at <http://csrc.nist.gov>.

★8. NSA's Information Systems Security Products and Services Catalogue. This catalogue includes lists of information systems security products and services that have either been evaluated against established standards, or been endorsed by NSA as having met the requirements and standards set for these products by the government. The catalogue includes the Endorsed Cryptographic Products List; Multilevel Information Systems Security Initiative (MISSI) Products List; NSA Endorsed Data Encryption Standard (DES) Products List; Protected Network Services List; Various Support Product Lists which include the Endorsed Data Encryption Standard (DES) Products List, the Protected Network Services List, the NSA Degausser Products List, and the Off-Line Systems; Evaluated Products List; Endorsed TEMPEST Products Lists for Level I and Level II; Endorsed TEMPEST Test Services List; and the Approved Destruction Products List. This catalogue will soon be available on a WWW site. For information on how to obtain this document, contact the National Security Agency Information Systems Security Organization (ISSO) Service Center (NISC) at 1-800-688-6115.
